

[illegible]

George E. Shannon, Left Guard.

"Bunny" is round like a barrel, hard as a brick and charges like a steam roller. He has been in every battle this year and sticks like glue. "Bunny" is a fighter, and the rougher they are the better he likes them. "Bunny" is 25 years old, stands a foot 8 inches tall and weighs 290 pounds.

Power-Pitch Choir

"Pete" never has much to say but is a known quantity in all homes! "Pete" is built like a Greek wrestler, weighs 282 pounds and is one of the most powerful men on the firm. He played his first football last year and has enjoyed every day. When Vilks gets started he is a hard man to stop. Vilks came to Missouri from Chicago.

The M alumni are not limited to foot.

Ball. When Douglass quartered miles in 1901 and 1909, but made a few houses since his departure from school. V. H. Fawcett, track man in '16, has written his intention of being back, as has Ed Rendick, who always demanded the fact that he had to compete with "Boh" ("Jack") Barlow, captain of last year's track team, will get Ray Bond, who used to team with him when they earned two places in the quarter, and the two will mark their grips in town for a day or two. Sam Shirley and "Mud" Garrothell will represent the basketball club, an effort to get a basketball team in the spring. 15. Harry M. Nick, will leave his "Louisville Stinger" at home, but he has asked that the boys have a bad trade, for he says that something pretty big will have to happen to keep him from the "Big Perry."

George Rulk, West End

"Rube" learned plenty of football last year and stepped into a regular berth on the Varsity this season. He has had wonderful success in catching passes and is a hard man to get by when he is on the defense. His kicking and shooting have been steadily improving and it is hoped by next year he will fill "Chuck" Lewis' shoes in this department. Rube hails from Poplar Bluff, and is the lightest man on the line weighing 161 pounds. He is 20 years old and stands 5 feet 8 inches tall.

No One-Man Team

No One-Man team, no matter how good that one man might be, could ever win a game. One man cannot win even with the help of ten others if he does not work with them and strive for the same thing at the same moment.

Cooperation, or team work,—the working together of many toward the same goal—working effectively and efficiently, is the only thing that will put the ball over.

CO-OPERATION WINS IN FOOTBALL

No Selfish Purpose

Twenty years' experience has proven that co-operation is profitable and successful when applied to the purchase of books and student supplies.

The working together of thousands of students for the purpose of saving money has made the CO-OP the largest store of its kind west of the Mississippi; the CO-OP was started to save money for the students.
